

**INFOTEK**

**INFOTEK** builds upon the timeless foundations of communication, structure, and design. We successfully integrate creativity, utility, and strong business objectives.

### Introduction

Infotek is an information technology (IT) services firm that specializes in IT consulting, data management solutions, staff augmentation and training. We combine deep industry knowledge, business strategy skills and specialized expertise to help commercial enterprises and the federal government increase their profitability, operational efficiencies and competitive advantage. Through our proven development methodologies, we empower our clients to realize the promise of their IT investments.

### Technology Solutions

At Infotek we understand that the ability to capture and transform data into a clear and meaningful source of information is essential to the success of our clients' businesses. Through our technology solutions practice, Infotek offers the development expertise that enterprises need to design, integrate, and implement strategic IT systems and software.

### IT Consulting

Infotek offers the high-level advisory assistance enterprises need to plan and design strategic IT and business engagements. We offer consulting professionals with technical, business and industry expertise to address your complex business problems, help you develop effective applications, and improve your existing information systems.

### Staff Augmentation

Infotek offers staff outsourcing services that provide cost-effective solutions for temporary and long-term, project-based personnel requirements. Our professionals can serve as supplemental staff on client project teams or as core personnel responsible for the end-to-end development of engagements.

### Training

As part of our education and training practice, Infotek works with clients to create training programs tailored to meet their specific needs. We offer seasoned professionals that provide course instruction, customer driven training development, expert teaching, hands-on courseware, and post-engagement training and evaluation.

### Track Record

Incorporated in 1991, Infotek has over 50 years of cumulative experience providing high-end technology services and advisory assistance. We have built a track record of delivering high-quality technology solutions and advisory assistance. The result is satisfied customers that include respected corporations and the federal government that included:

- Naval Air Systems Command (NAVAIR)
- Oracle Corporation
- ExxonMobil Oil
- Bank of America
- Fannie Mae
- Lockheed Martin

### Our Value to You

At Infotek, Our mission is to satisfy the need for quality IT services by consistently surpassing client expectations. We take pride in helping our customers realize their businesses objectives. Through the following formula, we have helped clients achieve their goals:

#### *Development Integrity*

Our development methodology has:

- Clearly defined timetables for implementation
- Clearly defined pricing
- System functionality that lives up to its billing
- Definable measurements to help gauge short-term ROI

#### *Technical Expertise*

From database design to enterprise application integration, our development team has the skills and experience to help you transform your ideas into effective solutions that include:

- Application Development
- Data Warehousing/Mining
- Supply Chain Management
- Legacy System Migration

#### *Commitment to Client Service*

Our goal is to fulfill your business needs. To this end, we offer the following:

- Solutions tailored to your needs
- Focused customer service
- Well defined channels of communication
